**YOU DON'T KNOW
JOE?**

You may not realise it, but you're involved, perhaps deeply, with Joe (Joseph A. Lewis II), even though you may have never met him! Just have a look in your bathroom cabinet or handbag; if it contains a product with Alpha-Hydroxy Acid (AHA), Idebeneone*, or CoffeeBerry®***, you're likely relying on Lewis to put your best face forward. Lewis sourced and introduced these ingredients for some of the skincare industry's most innovative breakthrough anti-ageing products. That's why in the beauty industry, he's not just a chemist, he's a pioneer of Cosmeceuticals.

The Anti-Ageing Authority
The business model of Lewis and his business partner Joseph C. DiNardo, also a master product formulator and toxicologist, might be unusual, but it's impressively successful. The two (known to some as "the Joes") invest years of scientific research, coupled with large amounts of R&D dollars, to bring new anti-ageing skincare technologies to the marketplace. These top anti-ageing technologies, both pharmaceutically and medically endorsed, have been presented at the largest dermatology meetings in the world and in world-renowned, peer-reviewed medical journals.

md formulations® Age-Lift Facial

THIS FIRMING AGE-LIFT FACIAL COMBINES WITH A DETOX MASSAGE TO LIFT, FIRM AND ILLUMINATE THE SKIN.

Following an AHA cleansing of the skin, an intensive treatment is applied specific to your skin's needs. Whilst the intensifier penetrates the skin, a lymphatic massage helps to eliminate impurities and toxins. The diatomaceous earth-and-algin-based mask rich in spirulina, vitamin A, vitamin C and hydrolysed collagen lifts, firms and hydrates the skin.
